EXPERIENCE

FREELANCE - E-COMMERCE DEVELOPMENT (June 20, 2025 – August 20, 2025)

Developed a custom e-commerce platform for an alcoholic beverages distributor:

- Designed a mobile-first UI and implemented a customized purchase flow tailored to client requirements (WhatsApp redirection with auto-generated messages and internal order tracking).
- Built an admin dashboard with CRUD operations and CSV import/export, enabling the store owner to efficiently manage products.

Main stack: React, TypeScript, Supabase (PostgreSQL), Radix UI, CSS Modules, React Router, React Hook Form, Zod, TanStack Query, Zustand, refine.dev, AG Grid.
